PHILADELPHIA, PENNA.

OUR NEW GOLD COINS

Figure 1, \$20. First Issue, date in Roman Letters, High Relief. Figure 2, \$20. Second Issue, with and without motto. Figure 3, \$10. With and without motto Figure 4, \$5. With Incused, or sunk-in lettering.

## IMPORTANT INFORMATION ABOUT RARE COINS.

#### PLEASE READ

The invention and use of coins is attributed to the Lydians, a Greek nation, about 862 B. C., whose money was of gold and silver. The dating of coins was first adapted about the fifteenth century.

(For more information regarding the Ancient coins see the beautiful photographic reproductions and explanations toward the end of this book. Read the Review of the Coinage of the World, in this book.)

The prices paid for rare coins are chiefly regulated by their state of preservation, the number of pieces issued of a certain date, and the demand for same. But neither the metal out of which the coin is made, nor the age, has anything to do with the prices paid.

The prices quoted in this book are for coins in good to proof candition (see "Conditions of Coins"), hence \$5.00 to \$40.00 means that is the value between those prices, according to the condition of the coin.

NEVER CLEAN A RARE COIN. A somewhat corroded coin is oftentimes more valuable than a cleaned one. The cleaning of a rare coin considerably decreases its value.

The prices offered in this book are not of mere guesswork. The book was prepared with the greatest care as to accuracy; after years of close study of the values of rare coins, with the assistance of years of experience gained in the coin business.

#### CLASSIFICATION OF THE CONDITION OF COINS.

The state of preservation of coins are classified as follows:

#### "PROOF"

Proof coins are especially struck for collectors from polished blanks and dies and finished by hand, which gives them a mirror-like, smooth, reflective surface. The most perfect condition known. The mint makes a small charge for the proof coins, and they can only be had during the year of the issue.

#### "UNCIRCULATED".

Uncirculated coins are coins struck for circulation. But coins, to be classified as "uncirculated," must be as new and bright as when dropped from the coining press; a coin that has been in circulation, no matter whether it shows no marks of wear, cannot be classified as uncirculated.

#### "FINE"

Fine coins are those that have been in circulation and have lost their original mint brightness, but they must not show any scratches or nicks.

#### "GOOD"

Good coins are those which have seen considerable circulation, but every feature of the coin must show plainly. It must not show any bad scratches or nicks.

#### "FAIR"

Fair coins are those which are much worn, but on which the design, lettering and date are clearly visible.

#### "POOR"

Poor coins are those on which the design, lettering and date are almost obliterated. Poor coins, unless of a very rare date, are worth their intrinsic value only.

#### "MUTILATED COINS"

Mutilated coins are those with holes, had cuts or scratches, or otherwise damaged, and are worth their intrinsic value only.

#### "OVER-DATES"

When a die, made in one year, is used in a later year, by engraving one figure over another, the piece struck therefrom is called an "over-date." For instance, the same die from which the Cents of 1810 were struck was used in 1811, by sinking a 1 over the 0, and portions of the latter figure are plainly visible.

#### COUNTERFEIT RARE COINS

Counterfeits of Rare Coins may be divided into the following classes:

#### RE-STRIKES

Re-strikes are pieces made from the original dies, but at a later period than the date on the coin. Among the American coins we find re-strikes of the dollar of 1804 and of the half cents of 1831, 1836 and 1840 to 1849. The re-strikes, of course, do not command near the price of the originals. At present the dies are destroyed after the expiration of each year.

#### ALTERED DATES

Altered dates are original coins which have been altered or tooled from one date to another, and these may justly be classed as forgeries. The rarer \*dates of the American coins are at times tampered with; especially the dollars of 1801, which are altered to the 1804. But an altered date can easily be detected by the aid of a good magnifying glass.

#### **ELECTROTYPES**

The front and back of electrotype coins are made separate and are then stuck together, and they may be easily recognized by the mark on edge showing where the two sides have been joined together. They are also of wrong weight. The electrotypes, as a rule, are not made to deceive the uninitiated, but are simply made as copies of very rare coins, where the original of the rare coin cannot be purchased. Electrotypes may generally be split in two with a strong knife.

#### CAST COINS

Casts, made from the original dies, are easily detected by their light weight or thickness. The lettering on cast coins is not as sharp as on struck coins, and the surface has a soft appearance, or else is covered with minute sand holes.

#### FORGERIES

Forgeries struck from false dies are mostly found of the rarer Colonial and U. S. pieces, also of rare ancient gold and silver coins. They are easily detected by anyone somewhat familiar with rare coins, as the weight of the forgeries is mistly incorrect, and the lettering and design are sharper than on the genuine.

#### THE TERMS USED TO DEFINE THE VARI-OUS PARTS OF A COIN

The front or face of a coin is called the Obverse.

The principal object represented on a coin is called the **Type.** 

The space between the type and the circumference is called the Field.

The lower portion of the area of a coin beneath the type, and separated from the rest of the field by a horizontal line, is called the Exergue.

Small objects represented either in the field or exergue as adjuncts to the main type are called **Symbols**.

Portions of a coin which are sunk below the level of the surface are said to be Incuse.

The hair of Liberty Head, when tied with a band, is called Fillet Head.

When the hair of Liberty Head is unconfined, it is termed as Flowing Hair.

The inscription on a coin is generally called the Legend.

When coins have inscriptions around the edge, they are called Lettered Edge.

The Milled Edge refers to coins with edge like the U. S. silver coins of the present day.

Mint Marks are the small letters on coins denoting the place of mintage. The mint marks are found on the Reverse side of the coin. Coins made at the Philadelphia mint have no mint mark. For a complete list of the mints and the mint-marked coins, see "The U. S. Mint and Its Branches" in another part of this book.

#### THE MOTTO ON U. S. COINS.

#### "In God We Trust."

Since the new 1907 issues of \$10.00 and \$20.00 gold pieces appeared, many are of the belief that all U. S. coins without the motto command a premium. This is not true. The motto was not placed on coins till 1861; the two-cent piece being the first coin bearing the motto. So, of course, all U. S. coins prior to 1864 are without the motto.

#### UNITED STATES COPPER COINS

#### HALF CENTS

Coinage commenced in 1793 and discontinued in 1857; none were coined in 1798, 1799, 1801, 1812 to 1824, 1827, 1830, 1837, 1838, and 1839. Were coined at the Philadelphia mint only.

See Plate 2 for illustrations of the different types.

# PRIVATE ISSUES OF GOLD COINS

The Private or Pioneer coins, as they are sometimes called, were issued by private parties in the "Pioneer" days of the West and in the 30's in the Carolinas and Georgia. While not to be considered as legal coinage or legal tender, these pieces were accepted and passed current at a time when there was a pressing need of money with which to transact the business of the country. Such coinage is now prohibited by existing laws.

# CALIFORNIA GOLD COINS

These coins were made as a substitute for the gold dust currency. The private firms making these coins were reputable, made their coins equivalent to, and in some instances a trifle better than the regular United States gold coins. The following firms issued the coins and whose names appear on them: Augustus Humbert (United States Assayer), 1851 and 1852; Baldwin & Co., 1850 and 1851; Clneinnati Mining & Trading Co., 1849; Dubosq & Co., 1850; Dunbar & Co., 1851; Kellogg & Co., 1854 and 1855; F. D. Kohler, 1850; Massachusetts & California Co., 1849; Miners Bank, 1849; Norris, Griggs & Norris, 1849; Moffat & Co., 1849 to 1853; J. S. Ormsby & Co., 1849; Pacific Co., 1849; Templeton Reld, 1849; Shults & Co., 1851; Wass Molltor & Co., 1852 and 1855.

### FIFTY-DOLLAR PIECES—Octagon

1852 Augustus Humbert, name on Obv.... 75.00 to 100.00 1852 U. S. Assay Office ................. 85.00 to 100.00

Issued by Bechtler in 1830, and now quite scarce. Worth from 50% to 500% premium.

# **COLORADO GOLD COINS**

The coins of Colorado were issued during the Pikes Peak gold excitement in 1860 and 1861, by Clark, Gruber & Co., J. J. Conway & Co., and John Parsons & Co., who dealt in gold dust at the mines and conceived the plan of striking their own coins with which to purchase gold dust from the miners.

# UTAH GOLD COINS

As in other "Pioneer States," gold dust was the only currency among the Mormous in 1849—when they issued gold coins bearing their own stamp. Their coins were made in 1849, 1850 and 1860 only.

COINS OF NEW YORK STATE AND NEW HAMPSHIRE,

# **OREGON GOLD COINS**

The issue of the Oregon gold coins was prompted by the same cause as in the other Western States—lack of a convenient currency. After an unsuccessful attempt by the Provisional Government to establish a mint, a private company—the Oregon Exchange Co., issued coins of the \$5.00 and \$10.00 denominations. The mint was erected at Oregon City; the necessary coining apparatus was made by a blacksmith.

See Plate 18.

#### TEN-DOLLAR PIECE

#### FIVE-DOLLAR PIECE

1849 Beaver; Oregon Exchange Co. .....\$20.00 to \$30.00

# **CAROLINA GOLD COINS**

Coins struck in Carolina were all made at one private mint owned and operated by Christopher Bechtler and his son August, whose names appear on all coins of their mintage. The mint was located at Rutherfordton, Rutherford County, N. C. It was operated from 1831 to 1840.

See Plate 16.

### NECESSITY MONEY OF THE UNITED STATES

#### **ENCASED POSTAGE STAMPS**

### Used as Money 1861 to 1865

These pieces, once used and passed as money under J. Gault's patent, dated August 12, 1862, consist of an unused U. S. postage stamp with a layer of mica over the face, framed in a round metal case, and the back contains advertisements of the period. The stamps used were 1c, blue; 2c, black; 3c, red; 5c, brown; 10c, green; 12c, black; 24c, violet; 30c, orange; and 90c, blue.

UNITED STATES PATTERN COINS.

### FEUCHTWANGER'S COINS

1837 Cent. Eagle on rock holding a snake ......\$ .05 1837 Three-cent piece, same as above ...................................50

### WAR TOKENS

These tokens were issued by different parties during the civil war. There are about 500 different varieties; they are the size of the small cent. None are very valuable. We pay from 25c to 50c per 100 pieces.

#### COMPOSITION SPIEL MARKS

These pieces were all made about the middle of last century and are somewhat in imitation of the U. S. \$2.50, \$5.00, \$10.00 and \$20.00 gold pieces and were originally issued as counters. They are of no value.

### HARD TIMES TOKENS OR JACKSON CENTS

Issued 1834 to 1841. There are about 100 varieties, all about the size of the large copper cents; some were struck in brass. Their issue was prompted by the currency question, which was then a great political issue, and all bear inscriptions politically significant. There are a few rare varieties, but the greater portion are common and are worth from 50c to \$2.00 per 100 pieces.

UNITED STATES PATTERN COINS.

### COINS OF THE CONFEDERATE STATES

#### HALF DOLLAR

1861 Struck at the New Orleans mint after the seizure by the Confederacy. The obverse is the same as the regular U. S. issue of that time. Only about four pieces were struck by the Confederacy. They were now very valuable. A number of re-strikes were issued at a later date.

Re-strikes .....\$2.00 to \$3.00

TOKEN, or the so-called CONFEDERATE CENT.

1860 Palmetto Tree, etc. Brass .............\$ .10 to \$ .25

#### CONFEDERATE CENTS

MEDALET or the so- called CONFEDERATE DIME
1861 Head of President Davis ............\$3.00 to \$5.00

# THE U.S. MINTS

The U. S. Coins were issued at six different mints: Philadelphia, New Orleans, San Francisco, Carson City, Dahlonega, and Charlotte. There are now four mints in operation: Philadelphia, New Orleans, San Francisco and Denver. The 1c. coins are now coined at the Philadelphia. San Francisco and Denver mints, and the 5c. pieces at the Philadelphia mint.

ROMAN IMPERIAL SILVER COINS.

1, Septimus Severus, heads of Julia, Caracal a and Getta, 193-211 A. D. 2, Faustina, Jr., 175 A. D. 3, Caracalla, Septimus and Julia. 4, Antonius Pius, 211-217 A. D. 5, Faustina Mater. 141 A. D. 6, Hadrian, 117-138 A. D. 7, Septimus Severus, 8-9, Julia Domna. 10, Caracalla and Getta. 11, Caracalla, A. Pius, 12, Lucia Verus, 161-169 A. D.

#### MINT MARKS

Coins issued at the branch mints have a special mark denoting the place of mintage; they are small letters, as shown below, and are generally found on the reverse or "tail" side of the coin.

#### UNITED STATES MINT

Philadelphia, Pa.—Organized in 1793. No mint mark.

#### BRANCH MINTS

New Orleans, La.—Organized in 1838; suspended in 1861; reopened in 1879. Mint mark "O."

#### OLD UNCURRENT BANK BILLS

#### (Broken Bank Bills)

6

1800 to 1876

A great number of notes in various denominations were issued by Banks and Banking Institutions prior to the creation of the National Bank System, and which have ceased to be current since that time. Many of these banks have lived but a short time, having either failed or gone into liquidation.

For the issues prior to 1837 there is a premium of 7 cents per note; later issues, 50 cents to \$3.00 per 100 notes.

#### WEIGHT AND FINENESS OF COINS

A gold dollar weighs 25.8 grains 9/10 pure gold, or 23.22 grains.

An ounce of gold 1000 fine is worth \$20.671834+.

An ounce of silver 1000 fine is worth (coinage value) \$1.292929+.

All American gold and silver coins are 9/10, or .900 fine.

A pound sterling weighs 123274+ grains, 11/12 pure gold, or 113.0016+ grains.

1, Domitian, A. D. 69-79. 2, Galba, A. D. 68-69. 3, Gallieuus, A. D. 260-268. 4, Faustiua, Sr. 5, Lucius Verus, A. D. 161-169. 6, Titus, A. D. 69-79. 7, Maximinus H. A. D. 305-307. 8, Nerva, A. D. 96-98. 9, Partiuax, A. D. 193. 10, Hadrian, A. D. 117-138. 11, D. 96-98. 9, Partiuax, A. D. 306-337. 12, Commodus, A. D. 180-192. Canstontinus Magnus, A. D. 306-337. 12, Commodus, A. D. 180-192.

A pound sterling is worth \$4.8665635287+.

An ounce of silver, English standard, is .925 fine=444 grains pure silver.

An ounce of silver, American standard, is .900 fine=432

grain pure silver.

An ounce of silver, "fine" standard, is 1.000 fine—=480 grain pure silver.

A United States silver dollar weighs 412½ grain .900

fine; contains 371.25 grains pure silver.

A dollar of fractional silver weighs 25 grams=385.80 grains, .900 fine; contains 347.22 grains pure silver.

An English shilling weighs 87.273 grains, .900 fine;

contains 80.729 grains pure silver.

The pure gold in gold coins of the United States is worth the face value of the coin.

The alloy in gold coins of the United States is pure

silver and copper.

The alloy in silver coins of the United States is pure copper.

#### U. S. MINT TEST FOR GOLD AND SILVER.

The following is a test for determining whether a coin is good or bad. Use the liquids as near the edge of the coin as possible, as that is the part most worn. A drop of the preparation will have no effect on a genuine coin, while it can be plainly seen on counterfeits. Heavily plated coins should be scraped slightly before testing.

Test for Silver.

24 Grains of Nitrate of Silver. 30 Drops of Nitric Acid. Water, 1 ounce. Test for Gold.

Strong Nitric Acid, 6½ drachms. Mur. Acid, ¼ drachm, or 15 drops Water, 5 drachms.

The above test should conform with diameter, thickness and weight, the test used at the mint.

# **COLONIAL PAPER MONEY**

The Colonial paper money was issued by the follow-

ing named States:

Connecticut, Delaware, Georgia, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont and Virginia.

#### U. S. CONTINENTAL CURRENCY

Issued under authority of the Congress of the United

Colonies, 1775 to 1779.

The denominations are \$\frac{1}{4}\$, \$1-3, \$\frac{1}{2}\$, \$1, \$2, \$3, \$4, \$5, \$6, \$7, \$8, \$20, \$30, \$40, \$45, \$50, \$55, \$60, \$65, \$70 and \$80.

When in good to fine condition they are

The coids of silver-standard countries are valued by their pure silver contents, at the average market price of silver. The coids of silver standard has the same legal value as the Mexican dollar in Hongkong, the Straits Settlements and Labuan. The sovereign is the standard coin of India, but the rupce (\$0.3244) is the money of account, current at 15 to the These are intrinsic values. The market price of current foreign coins fluctuates

sovereign.

# PAPER MONEY

#### U. S. FRACTIONAL CURRENCY

Immediately after specie payments were suspended in the early part of 1862, when gold and silver coins disappeared from circulation, the place of subsidiary silver coins was for a time supplied by tickets, due bills and other forms of private obligations, which were issued by merchants and corporations. Congress soon authorized the use of postage stamps for change and then a modified form of postage stamps called postage currency, and finally fractional currency in denominations corresponding to the subsidiary silver coins. There is over \$15,000,000 worth of this fractional currency still outstanding, about half of which is officially estimated to have been destroyed.

#### FIRST ISSUE

Issued August 21, 1862, to May 27, 1863.

# Arts and Remedies for Man as well as Animals ever Discovered

For Hundreds of years, with many proofs of their virtue and efficacy in Healing Diseases, &c.

The greater part of which was never published until they appeared in print, for the first time in the United States, in the year 1820, by the celebrated Author and Necromancer, John George Hohman, who claims that whosoever carries this little book with him is safe from all his enemies, visible or invisible, and whosoever has this book with him cannot die without Holy Corps of Jesus Christ; nor drown in any water; nor burn in any fire; nor can unjust sentences be passed upon him. I will name a few of the contents of this rare work:

How to Compel a Thief to Retu n Stolen Things; How to Extinguish Fire Without Water; How to Stop blood; How to Destroy Witches; How to Find all kinds o; Metals; To Banish all Kinds of Pain; To Compel a Thiefto Stand Still; How to Fasten or spellbind anything; And many rare and valuable secrets never be-

fore disclosed.

This book contains pages (in English or German languages); sent to any part of the world, under double-sealed wrappers, postpaid, for \$1.00; three copies for \$2.50. AGENTS WANTED.

# Albertus Magnus

Being the Approved, Verified, Sympathetic and Natural

# EGYPTIAN ® ® SECRETS

or, White and Black Art for Man and Beast. The Book of Nature and Hidden Secrets and Mysteries of Life Unveiled, being the Forbidden Knowledge of Ancient Philosophers, by the Celebrated Student, Philosopher, Chemist, Etc.

Translated from the German. Three Separate volumes all bound in one.

Albertus, Surnamed Magnus, from the Latinizing of his surname, which was Great, was a native of Suabia, and born in 1215. He was ardently desirous of acquiring knowledge, and studied with assiduity; but being of slow comprehension, his progress was not adequate to his expectations, and, therefore, in despair, he resolved to relinquish books, and bury himself in retirement. One night, however, he saw the vision of a beautiful woman, who accosted him, and inquired the cause of his grief. He replied that in spite of all his efforts to acquire information, he feared he should always remain ignorant. "Have youse little faith," replied the lady, "as to suppose that your prayers will not obtain what you cannot of yourself accomplish?" The young man prostrated himself at her feet, and she promised all that he desired, but added that as he preferred philosophy to theology, he should lose his faculties before his death. She then disappeared and the prediction was accomplished. Albertus became, unwillingly, Bishop of Ratisbon, but he relinquished the See within three years, and resided chiefly at Cologne, where he produced many wonderful works. It was said that he constructed an automaton which both walked and spoke, answered questions and solved problems submitted to it. Thomas Aquinas, who was the pupil of Albertus, was so alarmed on seeing this automaton, which he conceived to be the work of the devil, that he broke it to pieces and committed it to the fiames. When William, Court of Holland, and king of the Romans, was at Cologne, Albertus invited him to a banquet, and promised that his table should be laid out in the middle of his garden, although it was then Winter, and severe weather. William accepted the invitation, and on arriving at the house of Albertus, was surprised to find the temperature of the air as mild as in summer, and the banquet laid out in an arbor formed of trees and shrubs covered with leaves and flowers, exhaling the most delicious odors, which filled the whole of the garden. Albertus was reputed

## THIS EXTRAORDINARY WORK
